

Adhesive Double Door Lock

Easy 3-Step Installation Guide

Before removing the adhesive protective liner, do a dry run and test each step to make sure the installation will work. The SecureHold adhesive is meant to be used once only and cannot be repositioned if done incorrectly.

Important:

Qdos wants to keep you and your children safe and for that we need you to do your part by carefully reading and following the instructions below.

For installation videos and FAQ go to: QdosSafety.com

Parts List:

Step 1 - Determine the Best Location

Works on refrigerators /freezers, dishwashers, microwaves, cabinet drawers and doors, furniture drawers and doors, etc.

*For side by side refrigerators/freezers we recommended using the Qdos Adhesive Refrigerator and Freezer Lock.

** For Double cabinet doors we recommend using the Qdos Adhesive Double Door Cabinet Lock.

For best function, wrap the Multi-Lock around a corner. If possible place lock out of child's reach.

Step 2 - Prepare Surface

Thoroughly clean the surface where adhesive for lock will attach. Use rubbing alcohol to ensure grease, oil, wax or polish is removed. Make sure surface is dry.
*Do NOT use rubbing alcohol on wood furniture as it may cause damage.

Step 3 - Attaching the Multi Strap Lock

Before removing adhesive protective liner from the Multi-Lock it is a good idea to hold it in place to determine the exact position.

Remove adhesive protective liner.

Attach the Multi-strap lock in the desired position.

Press firmly for 30 seconds.

Unlock and leave for 24 hours to set for maximum adhesion.

To Operate

To open: Simply squeeze the two tabs and tilt lock backwards over locking guide

To close: Angle lock to engage the locking guide, tilt forward and press until lock snaps in place.

Permanent Removal

Use a rounded knife and carefully pry behind lock bases until the tape tears. Be careful not to damage furniture with the knife. For remaining tape residue, use a finger to simply rub it away. If any residue still remains, use a cleaner that will not damage the surface you are removing the residue from. There is no way to test all possible surfaces SecureHold Adhesive will be applied to; please use caution when removing to avoid damaging the surface. SecureHold adhesive may cause damage to some surfaces.

Make your home safer with Qdos... Adhesive Fridge/Freezer Lock

Easy One-handed Operation - Our Fridge/Freezer Lock secures double doors and drawers, yet removes quickly and easily with one hand.
