

Easy 3-Step Installation Guide

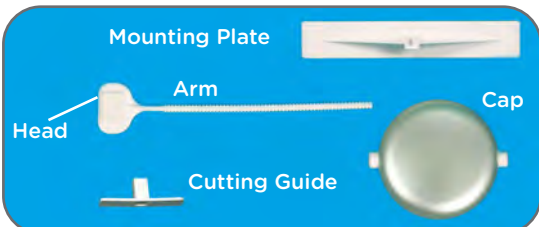

Before removing the adhesive protective liner, do a dry run and test each step to make sure the installation will work. The SecureHold adhesive is meant to be used once only and cannot be repositioned if done incorrectly.

Important:

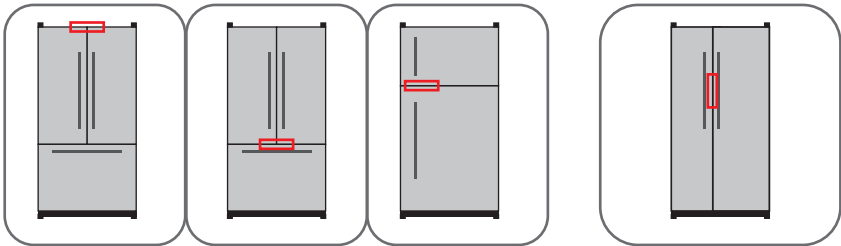

Qdos wants to keep you and your children safe and for that we need you to do your part by carefully reading and following the instructions below.

Parts List:

Step 1 - How to position Mounting Plate

A

B

C

D

HORIZONTAL Mounting Plate

VERTICAL Mounting Plate

A - On top of the fridge frame.

B - On the frame at the bottom of the fridge above freezer drawer.

C - On frame between freezer and fridge.

D - On frame between fridge and freezer doors.

Step 2 - Cut Arm and Position on Mounting Plate

Position the Arm against left door with "head" against fridge/freezer frame.

Slide cutting guide onto Arm with flat side down until it hits the door.

Mark position and cut arm to length with a pair of sturdy scissors.

For HORIZONTAL position in A, B, or C above.

Hold Mounting Plate horizontally and insert Arm into the "cradle" with "head" of Arm at 90°.

For VERTICAL position in D above.

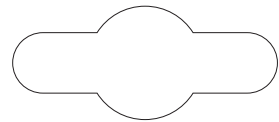

Hold Mounting Plate vertically and insert Arm into the "cradle" with "head" of Arm parallel.

Step 3 - Positioning Mounting Plate

Thoroughly clean the surface the adhesive will attach. Make sure the surface is dry. Remove the adhesive protective liner.

With Arm sliding along door or drawer, guide Mounting Plate into desired position. Press on Mounting Plate for 30 seconds. **Let adhesive set for 24 hours to achieve full strength before use.**

Storage Post for Cap

For convenience we have included an adhesive Storage Post for when the Cap is removed.

To attach the Storage Post, remove adhesive protective liner then press firmly into place for 30 seconds.

We suggest positioning the Storage Post at eye level to also function as a reminder when the fridge/freezer is locked.

To Permanently Remove Storage Post

Use a rounded knife and carefully pry behind an edge of the Storage Post until the tape tears.

For remaining tape residue, use a finger to simply rub it away. For any remaining residue, use a cleaner that will not damage the surface you are removing the residue from. There is no way to test all possible surfaces SecureHold™ Adhesive will be applied to; please use caution when removing to avoid damaging the surface. SecureHold™ adhesive may cause damage to some surfaces.

Make your home safer with Qdos...

with the

Adhesive Flexible Multi-Lock

Use on Cabinets, Appliances, Furniture- A perfect solution to prevent access to many other locations throughout your home as well.

Triple Lock Functionality - Secures with a locking guide and dual spring catches. Very difficult for toddler hands to operate.
