Qdos

A HIGHER STANDARD OF SAFETY®

LARGE OUTLET COVER BOX

IMPORTANT: Qdos wants to keep your children safe, and you! Therefore, we need you to do your part by carefully reading and following the instructions below. For more info and FAQ go to: QdosSafety.com

⚠ WARNING

- Before installation turn off power to outlet.

Types of outlets:

Standard Outlet

Existing wall plate is attached with one longer screw in the middle.

Decora Outlet

Existing wall plate is attached with two shorter screws.

Installation:

1

To prevent electric shock, please turn off electric power to outlet.

2

Remove existing wall plate.

3

Separate the Outlet Cover from the Mounting Plate by pulling from the inside at the left of the cable opening.

4

Choose the Standard or Decora Insert depending on your Wall Plate style, and fit Insert into the Mounting Plate

5

Place Mounting Plate and Insert over the outlet with the Qdos logo at the bottom and secure firmly with provided screws.

6

Plug in cords and adapters as usual.

7

Hook top of Outlet Cover to the Mounting Plate, rotate down and push closed and locked.

To Remove:

Place finger inside to the left of the cable opening and pull downwards while lifting the Outlet Cover.
